Project in the Spotlight

Join us in Singapore in mid-January to explore our next urban demonstration of the LIVE Singapore!, the Data Browser. The Data Browser will allow visitors to view the real-time conditions of Singapore, to learn about where the data comes from and how it is generated, and to create visualizations of their own from a variety of real-time datasets. Think of it as a kind of as an interactive GIS 2.0 where people can crowdsourcing explorations of their city.

UPCOMING EVENTS

- 5 December: Carlo Ratti will be in New York at the FT Citi Ingenuity Awards: Urban Ideas in Action 2012 for whom he served as a jury member.
- 7 December: The Lab will be presenting at the London School of Economics Electric City Conference, in London.
- 12 December: Carlo Ratti and the Lab will be in Genova discussing a Smarter Genova at the Confindustria Genova e ABB.
- 14 December: Building on the momentum in Genova, the Lab will also be at Confindustria Alessandria the future of cities.

NEWS AND MEDIA
